

Sundre

Community Engagement Site

E-Newsletter

Welcome to our E-Newsletter

The Video Conferencing Site in Sundre has successfully hosted the first events for the public. The feedback was great and very encouraging. More events are planned, please check the back page for listings.

This site is supported by community minded people interested in shaping how the site can be of benefit to local business, industry, municipality and the community as a whole. Presently we have 10 members on this council. Please read below what Ingrid Mayr, who is represent-

ing the Chamber of Commerce is saying about the new site.

You are invited to our
OPEN HOUSE
on April 22, 2009

6:00 pm to
8:00 pm

Join us for live demonstrations of the new Video Conferencing Technology

Everyone is welcome.

The Power of Tele Conferences

Submitted by Ingrid Mayr

When I found out, that Sundre has a new Tele Communication Site – I was very excited because I think this site provides a great opportunity for Sundre Businesses. This is the perfect solution for independent and small business entrepreneurs.

Imagine, there is a conference in Edmonton and there is a blizzard warning. You committed yourself to give a 20 minutes sales presentation during this conference. The time you would spend to drive to Edmonton, and maybe spend a night there because of the rough weather conditions and all the costs involved with this trip might be quiet high.

Now with the Sundre Community Engagement Site you can make

your presentation from your home town, at a set time and go back to your office within an hour or two. What a relieve!

Of course this is only one example. This site can be used to train your employees without having them gone for the rest of the day, if a seminar only takes 2 hours. Maybe you would have to pay them 2 night accommodation in addition with the travelling costs to attend a training seminar they could attend right at the door step of their homes.

There are more examples: Why not book the Sundre facility for a weekend and attend an Accounting Training Course with your employees or other business owners in town to keep up-to-date. Or market your business with TELE SEMINARS, offered world wide. Home Hardware is a very good

example. They have Do-It-Yourself TV shows. Why don't you do the same for your own business with the use of the Sundre facility and sell your product with this seminar? Or a cooking show – what better outlet would be available then give a cooking lesson and sell your products?

These are only few examples and with the new technology used by more and more people around the world, the possibilities are endless ... and the best of all, it doesn't cost a fortune to do it !

If opportunity doesnt knock, build a door.

Milton Berle

EVENT CALENDAR

Please register one week prior to the event.

Fetal Alcohol Spectrum Disorder Part I: An Overview

Start Time

Apr 28, 2009 10:55AM
